1.Home Page:

Upon arriving at the home page, you'll see a blue box prompting you to sign up with Dropbox. Click this box to connect your Dropbox account, this will be your authorization for the web app. This is required in order to access the web application's features, which will work with your Dropbox folders.

2.Upload page

Once you've successfully authenticated and signed in, you'll be redirected to the [/uploads](#) page. Here's how to upload your video files:

a) Add Files:

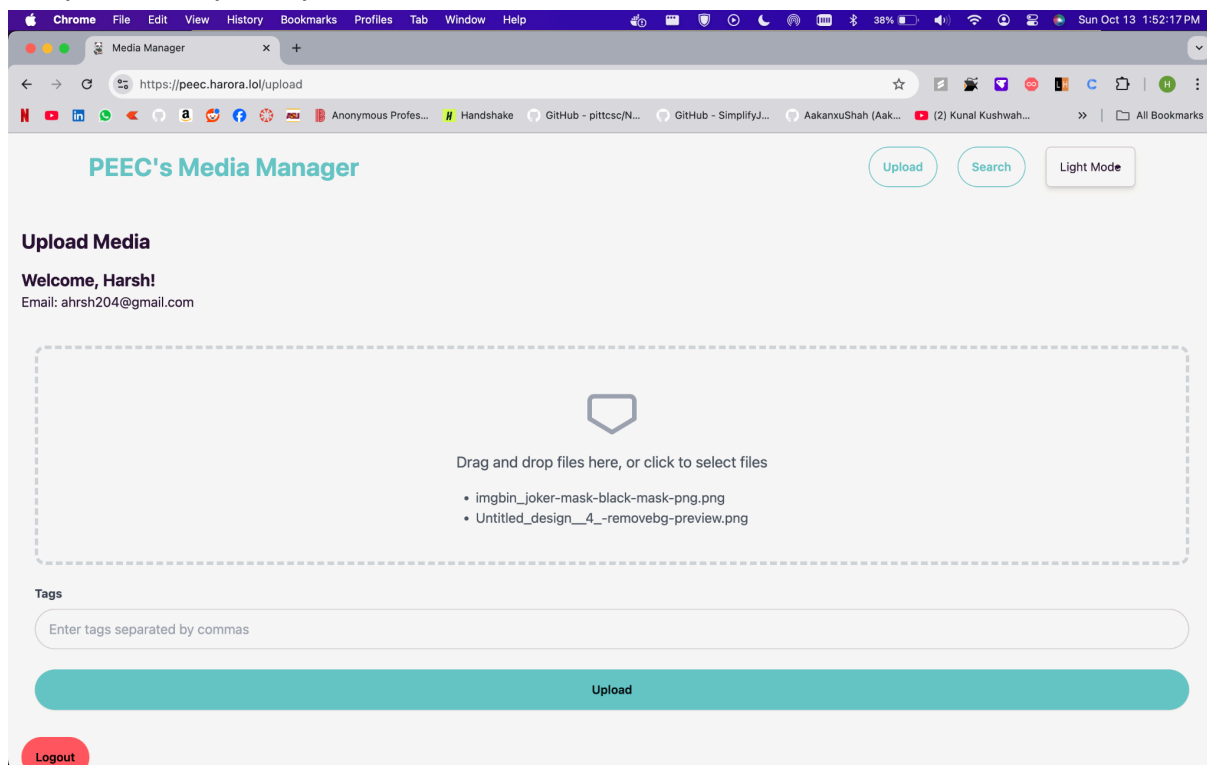

- Drag and Drop: Simply drag and drop your files into the designated area.
- Select Files: Alternatively, click on the wide box to browse and select the file(s) you wish to upload.

b) Tagging (Optional):

After adding your files, you can manually assign tags to each file. These tags will help you find and categorize your files later.

c) Submit:

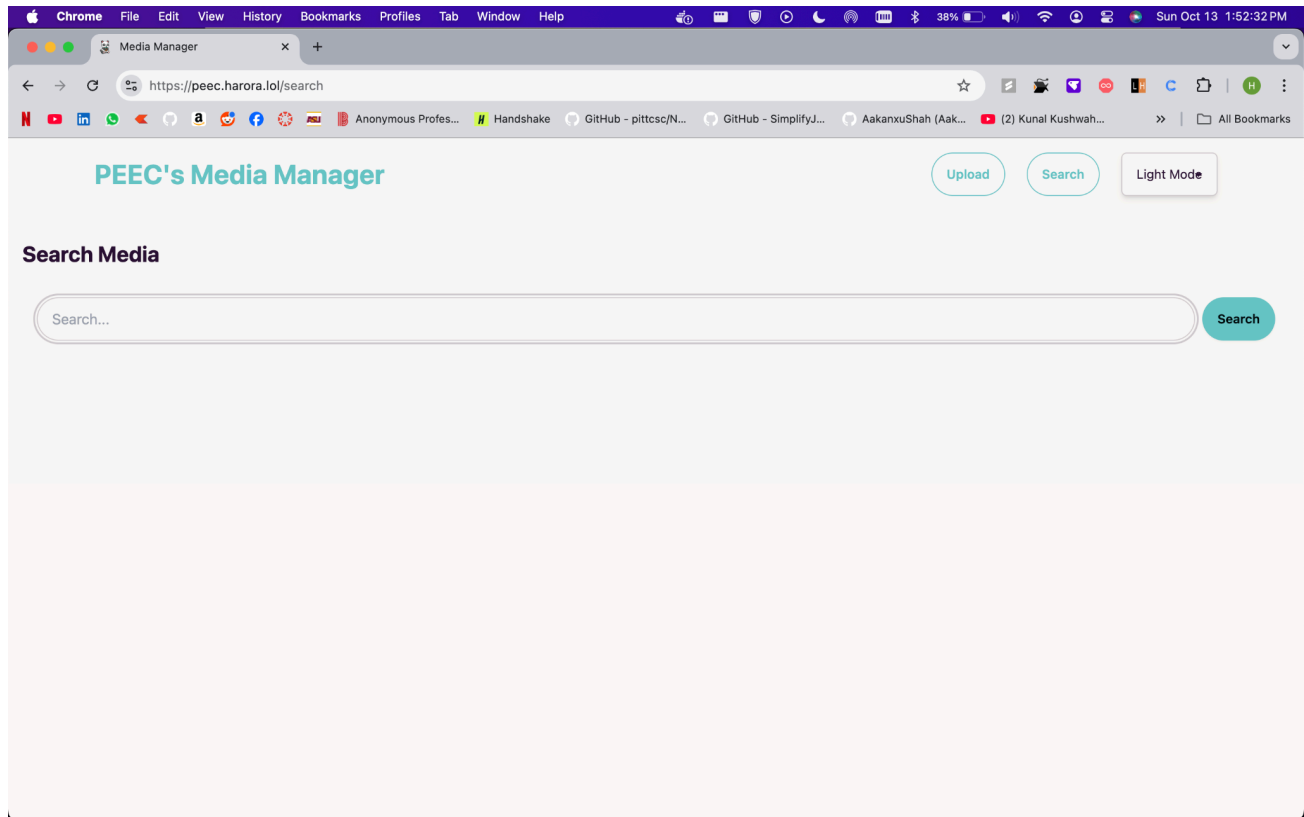

Once you've uploaded your files and optionally added tags, click the "Submit" button to complete the upload process.

3. Search for Files

After uploading, you'll encounter the [/search](#) tab. Here, you can search for images based on tags or captions you like.

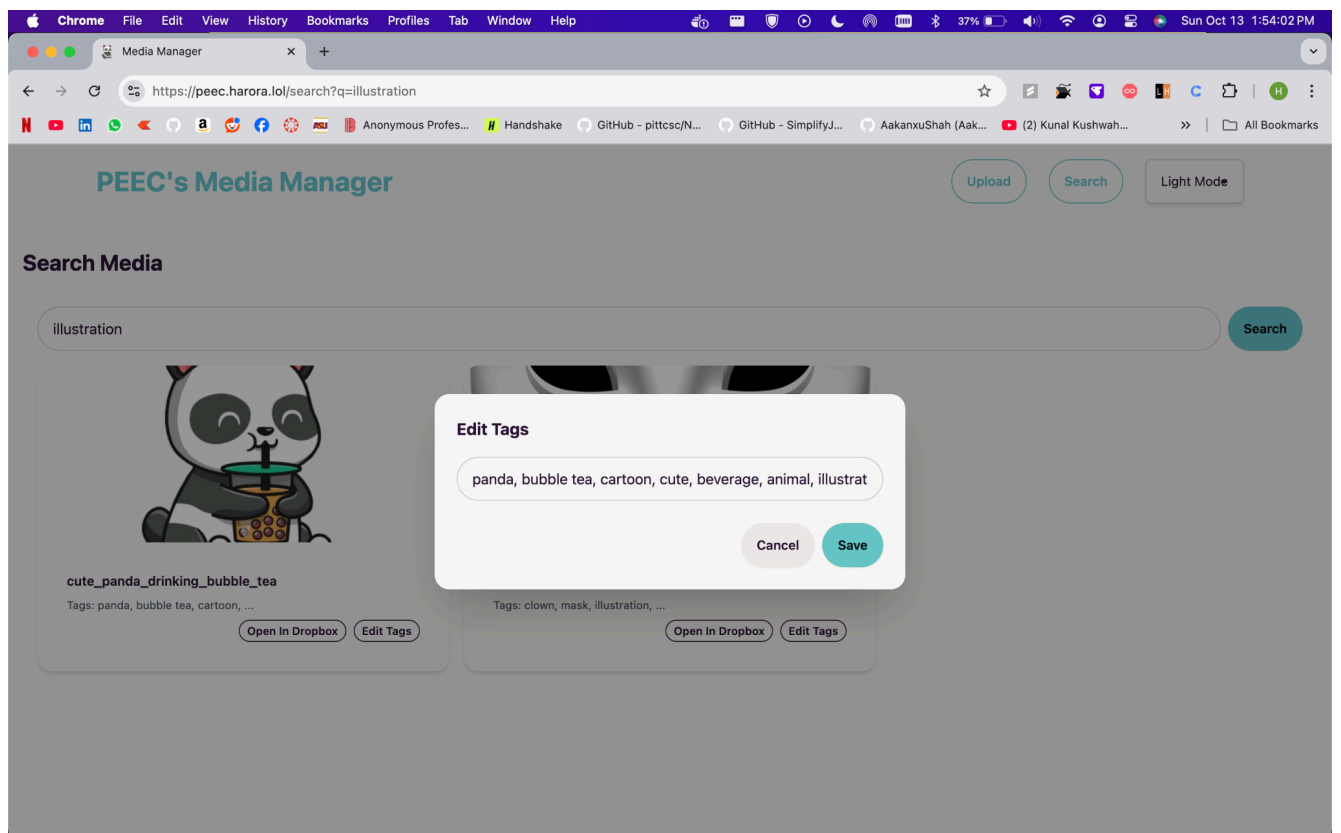

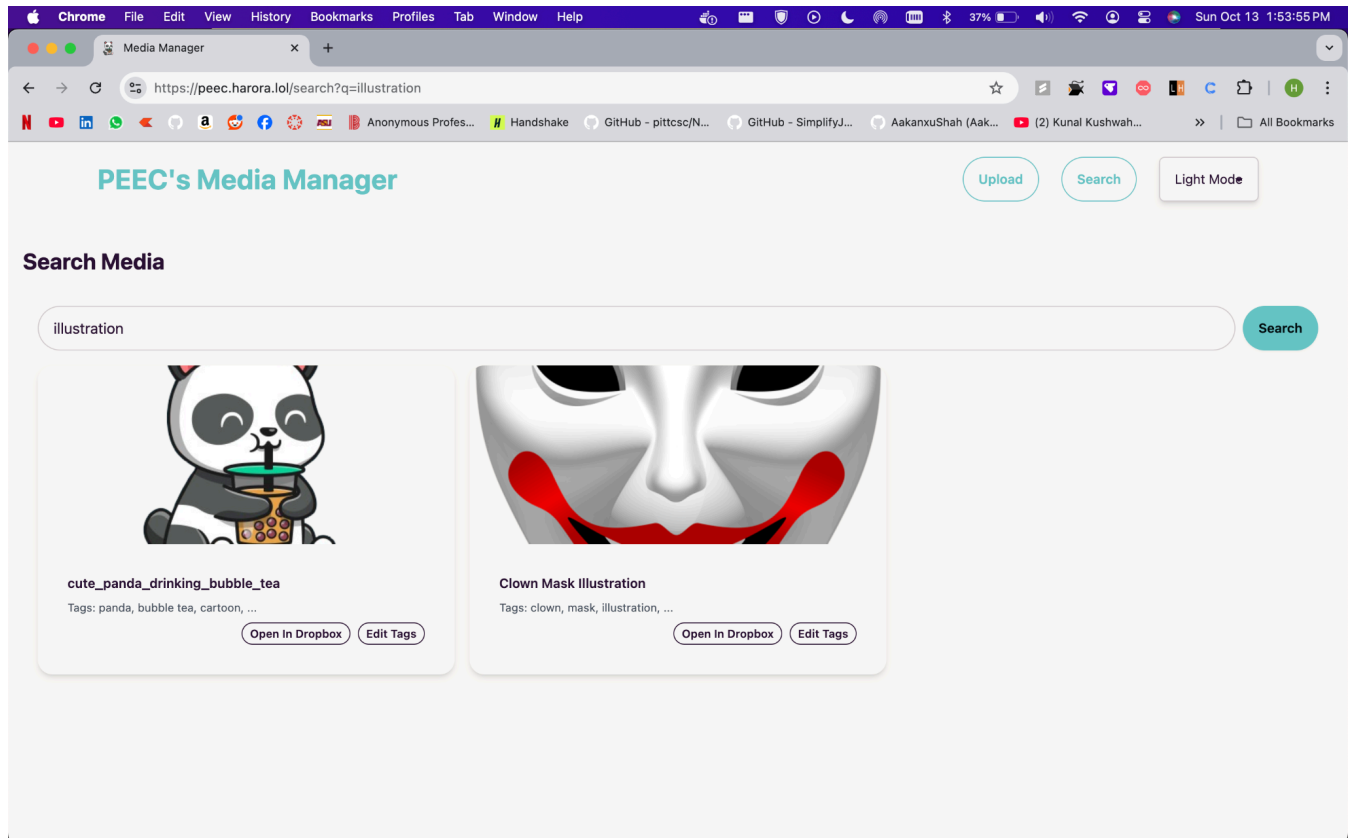

- Search Query: Enter your search query, such as "children in garden" or "illustrations," in the search box. Then, click "Search."
- Results:
 - Each image that matches your query will be displayed along with its assigned tags.
 - You can edit the tags directly from the results page.
 - A link to the image in your Dropbox account is also provided for full and quick access.

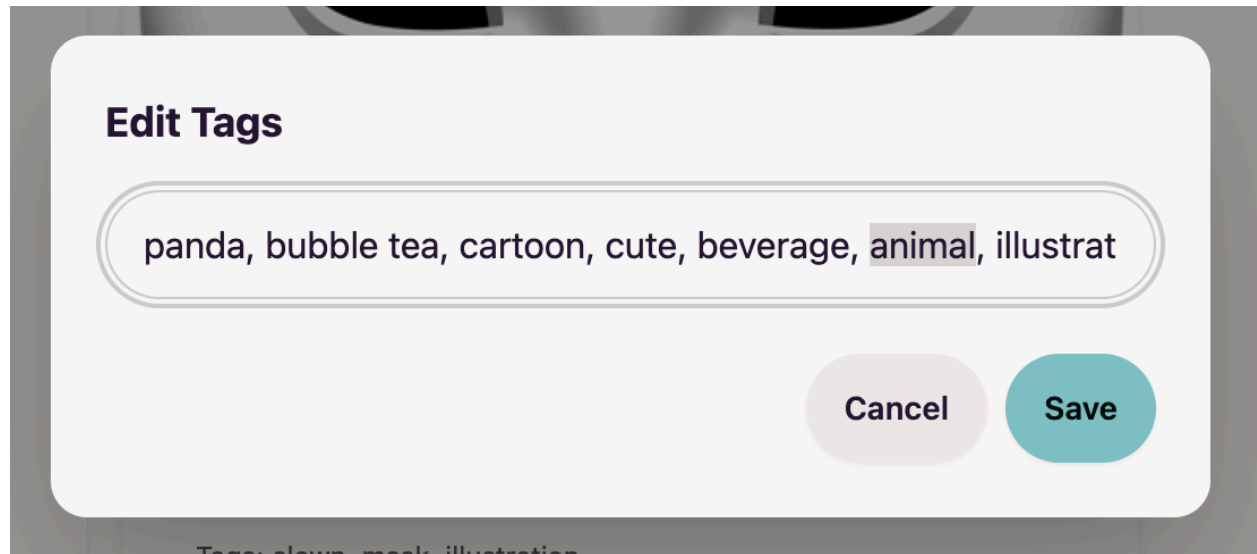

4. Editing Tags and Viewing Images

After searching for images, you can modify the tags or view the images directly in Dropbox. Here's how:

- Edit Tags:
 - Each image in the search results has an "Edit Tags" option below it.
 - Click on the Edit Tag button to modify the tags associated with the image.
 - After making your changes, be sure to click Save to update the tags.

5. View Full Image:

- To view the full-size image, click the "Open in Dropbox" option. This will take you directly to Dropbox, where you can view the image in its entirety.
